Controlled environments must meet stringent federal guidelines and requirements. USG Boral understands that and takes nothing for granted. Every component of our controlled environment products maintains and assures the integrity of a clean room. We offer a complete ceiling system solution for Industry environment ranging from food processing to aerospace and microscope assembly rooms.

We offer various controlled environments space applications options to help you design clean room areas that are:

- 1) highly functional;
- 2) will obtain client approval; and
- 3) within your budget criteria.

Office space designs are now becoming a deciding factor in recruiting and retaining employees. Design workspaces that boost and enhance productivity while motivating employees. Design workspaces that boost and enhance productivity while motivating employees. USG Boral provides solutions for all your design needs from open office plans to offices requiring direct or indirect lighting. USG Boral ceiling and wall system selections offer superior choices for designing office space that employees look for and work best in.

We offer various office space application options to help you design work areas that are:
 1) highly functional;
 2) will obtain client approval; and
 3) within your budget criteria.

Designing an educational environment can be a learning experience. USG Boral takes an integrated approach in helping you design spaces that provide a balance of design and good education. Our wide selection of high quality ceiling tiles, suspension systems, permanent walls, and precision engineered demountable walls all make the grade. With years of experience behind us, our building products are long lasting and will stand up to the abuse typically found in schools.

We offer various application options to help you design an educational environment that are: 1) highly functional; 2) will obtain client approval; and 3) within your budget criteria.

Hospitality

The hospitality and entertainment industry has numerous design requirements and needs. Whether designing a restaurant, fitness center or parking garage, USG Boral offers innovative, cutting-edge ceiling and wall system solution specifically for creating distinctive showplaces. Using curves, waves, vault and valleys, USG Boral helps you design spaces that attract, excite and thrill patrons, leaving a lasting expression of a magnificent experience.

We offer various hospitality / entertainment space application options to help you design a space that are:
 1) highly functional;
 2) will obtain client approval; and
 3) within your budget criteria.

Retail stores are designed to leave an indelible impression on the customer—usually in the form of a unique identity. USG Boral ceilings and wall systems can meet your store design needs by helping you create, define and enhance your store identity. Whether creating a new store or updating an existing one, USG Boral has what you need.

We offer various retail store application options to help you design a retail space that are:
 1) highly functional;
 2) will obtain client approval; and
 3) are within your budget criteria.

Retail

ACOUSTICS

Acoustics

A balanced acoustical environment often plays an important part in improving productivity, comfort and peoples' sense of well being. Through appropriate selection and placement of USG Boral ceiling systems, it is possible to improve speech intelligibility, reduce unwanted noise or increase privacy within a space or between adjacent offices.

NRC (Noise Reduction Coefficient) - defines the average sound absorption of a ceiling panel

CAC (Ceiling Attenuation Class) - defines the average 'room to room' sound attenuation of a ceiling system

Sound absorption

Noise Reduction Coefficient (NRC) measures the degree to which a ceiling panel absorbs sound. Ceiling panels with a high NRC value are most appropriate for open areas because they can reduce reverberation within a space. NRC is represented by number between 0 and 1.00, which indicates the percentage of sound reaching the panel that will be absorbed. For example, an acoustical ceiling panel with a NRC value of .60 will absorb 60% of the sound that strikes it and deflect 40% back into the space. A ceiling panel with a NRC of .50 or higher is considered to offer significant sound absorbing properties.

Sound attenuation

Ceiling Attenuation Class (CAC) indicates the ability of a ceiling system to reduce sound transmission. Panels with a high CAC value can improve privacy in enclosed spaces by blocking sound from transmitting up into the plenum and down to adjacent rooms. A ceiling panel with a CAC of 40 will reduce transmitted sound by 40 decibels (dB). A ceiling panel with CAC of 35 or higher is considered to offer significant sound attenuation properties.

FIRE RATING AND HUMIDITY RESISTANCE SELECTOR

Fire Rating

USG Boral Ceiling Panel products are manufactured to meet the requirements of ASTM standards for the preservation of the safety and welfare of building occupants. Our fire-rated products are available in a wide range of textures and patterns to meet your desired aesthetic, budget and building design requirements. Our ceiling panels and suspension systems work well to offer UL-approved fire-rated assemblies that meet all building design requirements.

CATERPILLAR™ CLIMAPLUS™ CONCEALED / NEW STAR-Z™ CLIMAPLUS™ CONCEALED

Caterpillar Panels with ClimaPlus Performance / DH Suspension System

FEATURES AND BENEFITS

- Non-directional pattern offers fast, efficient installation
- Grid system is totally concealed, creating a monolithic surface
- High mineral wool content ensures superior strength, high machinability and precision

APPLICATIONS

- Closed/Open type offices
- Retail stores
- Hospitals
- Warehouses
- Schools/Auditoriums
- Restaurants
- Exhibition rooms
- Light industrial buildings

SUBSTRATE

- Water-felted mineral fiber

 High Recycled Content

Lightly textured panel

Lightly textured panel

Maintenance
Can be cleaned easily with a soft brush or vacuum.

Footnotes

- For details, see LEED report tool at usgdesignstudio.com.
- LR values are shown as averages.
- Not all panel size available in all geographic areas.
- Imperial equivalent size available.

Short Specification:

- Ceiling system shall comprise USG Caterpillar™ ClimaPlus™ Concealed / New Star-Z™ ClimaPlus Concealed high humidity / fire resistant acoustical ceiling panels in DA, DX I and DX II.
- Panels shall have NRC 0.35.
- Panels shall have CAC 35.
- Nominal size (15mm x 300mm x 600mm), Imperial equivalent size available.
- Edge detail shall be Edge detail shall be all edges Bevel Edge Standard Kerf & Square (BESK) / all edges Shiplap-Bevel Edge Standard Kerf (S-BESK).
- Limiting Conditions - Maximum 49°C (120°F) and 99% RH.

CATERPILLAR™ CLIMAPLUS™ GLUE-ON / NEW STAR-Z™ CLIMAPLUS™ GLUE-ON

Caterpillar Panels with ClimaPlus Performance

FEATURES AND BENEFITS

- Natural and simple pattern
- Tiles come together to form an integrated surface
- Stronger structural stability, effectively resists deforming
- Reduced thermal transfer and energy loss
- High mineral wool content ensures superior strength, high machinability and precision

APPLICATIONS

- Closed/Open type offices
- Retail stores
- Schools/Auditoriums
- Restaurants
- Corridors

SUBSTRATE

- Water-felted mineral fiber

 High Recycled Content

**NEW STAR-Z GLUE-ON
CLIMAPLUS PANELS**

LEGEND

 **Low Emission (VOC Class)**

Meets the emission test criteria as low-emitting prescribed by the Singapore Green Building Council (SGBC), following ASTM D5116-06 testing methods.

 **CLIMAPLUS Superior Performance**

Contains a broad-spectrum antimicrobial additive on the face and back of the panel that provides resistance against the growth of mold and mildew

 **High Recycled Content**

Classified as containing greater than 50% total recycled content. Total recycled content is based on product composition of post-consumer and pre-consumer (post-industrial) recycled content per FTC guidelines.

 **LR** ≥ .85

**PHYSICAL DATA/
FOOTNOTES**

ASTM E1264 Classification

Type III, Form 2, Pattern C, E

ASTM E84 surface burning characteristics

Class A

Flame spread: 25

Smoke developed: 50

Imperial Weight

0.75-0.98 lb./ft.²

Metric Weight

3.6-4.8 kg/m²

Thermal Resistance

9mm = R-1.0

12mm = R-1.3

Backloading

Refer to Installation and Maintenance

Maintenance

Can be cleaned easily with a soft brush or vacuum.

Footnotes

1. For details, see LEED report tool at usgdesignstudio.com.

2. LR values are shown as averages.

3. Not all panel size available in all geographic areas.

4. Imperial equivalent size available.

Short Specification:

- Ceiling system shall comprise USG Caterpillar™ ClimaPlus™ Glue-On / New Star-Z™ ClimaPlus™ Glue-On high humidity / fire resistant acoustical ceiling panels.
- Panels shall have NRC 0.35.
- Nominal size (9mm / 12mm x 300mm x 600mm). Imperial equivalent size available.
- Limiting Conditions - Maximum 49°C (120°F) and 99% RH.

CLEAN ROOM™ CLIMAPLUS™

Clean Room Class 10M-100M Panels with ClimaPlus Performance / DONN Brand DXLA Suspension System

FEATURES AND BENEFITS

- Clean Room™ ClimaPlus™ Class 100 and Class 10M-100M panels have an embossed, vinyl-laminated face with sealed back and edges for use in Class 100 or 10M-100M clean rooms.
- Firecode® formulation designed to meet life safety codes.
- ClimaPlus™ 30-year lifetime system warranty to withstand conditions up to 49°C (120°F) and 99% relative humidity without visible sag when used with DONN® Brand suspension system.

APPLICATIONS

- Clean rooms
- Hospitals
- Surgical areas
- Laboratories
- Kitchens/food preparation areas

SUBSTRATE

- Water-felted mineral fiber

 High Recycled Content

Smooth-textured panel, Class 10M-100M | Smooth-textured panel, Class 100

LEGEND

Low Emission (VOC Class)

Low-Emitting performance meets CA Specification 01350 (CA Dept. of Health Services Standard Practice for the testing of VOC emissions) and is listed on CHPS data base for low-emitting materials.

CLIMAPLUS Superior Performance

Contains a broad-spectrum antimicrobial additive on the face and back of the panel that provides resistance against the growth of mold and mildew

High Recycled Content

Classified as containing greater than 50% total recycled content. Total recycled content is based on panel composition of post-consumer and pre-consumer (post-industrial) recycled content

Backloading
Refer to Installation and Maintenance

Maintenance
Can be cleaned easily with a damp sponge, mild detergent and water. Do not use acetate, ammonia, or highly concentrated chlorine, bromide or other harsh chemicals.

Footnotes

- For details, see LEED report tool at usgdesignstudio.com.
- NRC rating CleanRoom ClimaPlus Class 100 panels is .10. USG does not consider a ceiling panel to be acoustically rated if NRC is less than .50
- LR values are shown as averages.
- Field-cut edges of CleanRoom panels may be sealed with white latex paint.
- Clean-room-rated applications require a suspension system with gasketed tee flanges such as DONN CE.

- Not intended for kitchen/food prep applications. Use unperforated product (Class100) - Item numbers 56099 and 56091.
- Not all panel sizes available in all geographic areas.
- Not all grids shown should be used with the fire resistant panels; for fire rated assemblies, see UL design details.

Short Specification:

- Ceiling system shall comprise USG CleanRoom™ ClimaPlus™ high humidity / fire resistance acoustical ceiling panels in (DONN DX 24mm [15/16"] / DONN CE 38mm [1-1/2"] / DONN DXW 38mm [1-1/2"] / DXLA 24mm [15/16"] / ZXLA 24mm [15/16"] / AX 24mm [15/16"]) exposed grid including wall trim as manufactured by USG Interiors, LLC.
- Panels shall have NRC 0.55 (CleanRoom™ ClimaPlus™ Class 10M-100M perforated)
- Panels shall have CAC 35
- Nominal size (600 x 600mm / 600mm x 1200mm) x 15mm / (2' x 2' / 2' x 4') x 5/8".
- Edge detail shall be Square [SQ] .
- Limiting Conditions - Maximum 49°C (120°F) and 99% RH

Galaxy Panels/DONN DX/DXL Suspension System

FEATURES AND BENEFITS

- Economical, all-purpose ceiling pattern available in various panel sizes and edge details.

APPLICATIONS

- Retail or Department stores
- Offices
- Corridors

SUBSTRATE

- Water-felted mineral fiber

HALCYON™ CLIMAPLUS™

Halcyon Panels with ClimaPlus Performance/
DONN Finline 1/8 DXFF Suspension System

FEATURES AND BENEFITS

- Exceptional noise reduction with NRC values up to 1.00 for open-plan offices
- High light-reflective finish (LR.88) reduces light fixtures and energy use
- Washable and Scrubbable finish - Impact and Scratch Resistant
- Coordinates visually with Mars for open/closed plan applications
- Compatible with Logix integrated ceiling system
- Non-directional, monolithic visual reduces installation time and waste
- ClimaPlus™ 30-year lifetime system warranty against visible sag.

APPLICATIONS

- Open-plan offices
- Offices with indirect lighting
- Waiting Rooms / Nurses stations
- Media Rooms
- Libraries

LEGEND

Low Emission (VOC Class)
 Low-Emitting performance meets CA Specification 01350 (CA Dept. of Health Services Standard Practice for the testing of VOC emissions) and is listed on CHPS data base for low-emitting materials. USG Certificate of Compliance for Low VOC Emissions also available in usg.com

CLIMAPLUS Superior Performance⁴
 Contains a broad-spectrum antimicrobial additive on the face and back of the panel that provides resistance against the growth of mold and mildew.

High Recycled Content
 Classified as containing greater than 50% total recycled content. Total recycled content is based on product composition of post-consumer and pre-consumer (post-industrial) recycled content per FTC guidelines.

$\geq .70$ NRC
 $\geq .85$ LR

MARS™ CLIMAPLUS™ HIGH-NRC

Mars High-NRC Panels with ClimaPlus Superior Performance /
DONN DX/DXL Suspension System

FEATURES AND BENEFITS

- Excellent noise reduction (NRC-.80).
- High light-reflective finish (LR-.89) reduces light fixtures and energy use.
- Washable and scrubbable finish.
- Impact and scratch resistant.
- Meet USDA/FSIS guidelines for use in food processing areas.
- Coordinates visually with Halcyon™ for open-or-closed-plan applications
- Non-directional, monolithic visual reduces installation time and waste.
- ClimaPlus™ 30-year lifetime no-sag system warranty against visible sag, mold and mildew

APPLICATIONS

- Offices
- Healthcare
- Classrooms
- Corridors
- Reception areas and lobbies
- Departmental stores and retail
- Dining rooms, kitchens and food preparation areas

SUBSTRATE

- X-Technology mineral fiber

Backloading
Refer to Installation and Maintenance

Maintenance
Can be cleaned easily with a soft brush or vacuum. To clean panel, use a clean, white cloth with water or a mild detergent and wipe surface.

Proprietary technology
This product's unique combination of sag resistance and sound performance results from a proprietary technology.

Footnotes

- For details, see LEED report tool at usgdesignstudio.com.
- LR values are shown as averages.
- Panel face and back surfaces treated with a proprietary, broad spectrum antimicrobial additive that inhibits and retards the growth of mold, mildew and bacteria. For details, see Ceiling Systems Limited Warranty Commercial Applications (CW2015).
- Maximum 2'x2' with SQ edge panels.
- Not all panel sizes available in all geographic areas, some metric sizes suitable to order.

Short Specification:

- Ceiling system shall comprise USG Mar™ ClimaPlus™ High-NRC humidity / fire resistant acoustical ceiling panels in (DONN Centricitee 15mm [9/16"] / DONN DX 24mm [15/16"] / DONN Omega 15mm [9/16"] / DONN Fineline 15mm [9/16"] / DONN Identitee 15mm [9/16"]) exposed grid including wall trim as manufactured by USG Interiors, LLC.
- Panels shall have NRC 0.80.
- Panels shall have CAC 35.
- Nominal size (600mm x 600mm / 600mm x 1200mm) x 22mm / (2' x 2' / 2' x 4') x 7/8".
- Edge detail shall be (Fineline Bevel [FLB] / Shadowline Tapered [SLT] / Square Edge [SQ]).
- Limiting Conditions - Maximum 49°C (120°F)/99% RH.

OLYMPIA MICRO™ CLIMAPLUS™

Olympia Micro Panels with ClimaPlus Performance /
DONN DX/DXL Suspension System

FEATURES AND BENEFITS

- Nondirectional pattern reduces installation time and waste
- ClimaPlus™ 30-year lifetime system warranty to withstand conditions up to 49°C (120°F)/99% relative humidity without visible sag when used with a DONN® Brand suspension system.

APPLICATIONS

Safety First! Follow good safety/industrial hygiene practices during installation. Wear appropriate personal protective equipment. Read SDS and literature before specification and installation.

PIN PERF™ CLIMAPLUS™

Pin Perf Panels with ClimaPlus Performance/ DONN DX/DXL Suspension System

FEATURES AND BENEFITS

- Random, fine and coarse perforations
- ClimaPlus™ 30-year lifetime system warranty to withstand conditions up to 49°C (120°F)/99% relative humidity without visible sag when used with a DONN® Brand suspension system.

APPLICATIONS

- Department Stores
- Offices
- Corridors
- Retail store

SUBSTRATE

Texture

The manufacturing process for cast ceiling panels creates natural, subtle texture variations, which is a distinguishing texture of these products. Because of potential variances between production dates, we recommend ordering and installing cast products by production lot number.

Footnotes

- For details, see LEED report tool at usgdesignstudio.com.
- LR values are shown as averages.
- To highlight the unique texture of Sandrift ClimaPlus panels, choose light colors. See Colors selector for more information.
